We deliver insight and connections to facilitate safe and effective drug development for more personalized and targeted patient populations.

Event Name : IMPACCCT Real World Summit

Event Date: 2025-06-10 - 2025-06-12

Event Profile : As regulators and payers increasingly elevate the importance of RWE in submission requirements and with an explosion of datasets opening up in parallel with advancing AI, deep learning, and large language models transforming big data analysis, it has never been more critical to keep up with the matrix of country-specific regulatory nuances and industry case studies in optimizing integrated evidence plans, bullet-proofing data quality, and navigating vendor selection.
